

Keeping Your Compressed Air System "High and Dry"

Refrigeration Dryers

- Easy installation and operation.
- Small space saving design.
- Excellent liquid removal.
- Low pressure differential across dryer (1.45 PSIG avg).
- Environmentally friendly refrigerant.
- Effectively operates in ambients to 122°F.
- Dewpoint indicator.

Membrane Dryers

- Available in 3/8, 1/2 NPT or BSPP-G ports.
- Dried compressed air is immediate.
- Compact modular design and easy installation.
- Low pressure drop.
- No moving parts or electrical connections.
- Compatible with Wilkerson FRL models.

Auto Electric Drain Valve

- Does not air-lock during operation.
- Compressed air systems up to any size.
- Available in stainless steel.
- Serviceable direct acting valve.
- Suitable for all types of compressors, dryers and receivers.
- TEST (micro-switch) feature.
- Large (4.5mm) valve orifice.

Desiccant Dryers

- Atmospheric dew points as low as -100°F.
- No electrical connection necessary.
- Color change of the desiccant provides an instant status of compressed air system.
- Available desiccants; silica gel, 4A molecular sieve, 13X molecular sieve.

Regenerative Desiccant Dryers

- Available in multiple voltages.
- Low power consumption.
- Desiccant chambers are spring loaded for long life and optimum performance.
- Purge mufflers are standard.
- Automatic solid state cycle timer with memory for reliable purge cycle timing.
- On/Off switch is standard (DE3, DE4, & DE5).

Liquid Separators

- Less than 1 PSIG differential pressure
- Lightweight aluminum housing with 1" to 3" NPT connections
- Zinc housings with 1/4" to 1" NPT connections
- Quick disconnect bowls for ease of service
- Optional automatic drains available
