Octopus End-of-Arm Vacuum Tooling for Challenging Pick-in-Place Applications

**The OCTOPUS... any size, any shape, EVERY application!**

## Design Features

- Compressed air venturi or vacuum pump options.
- Compressed air blow off ports, vacuum switch ports.
- Easily inspected stainless-steel micronet filter installed to protect vacuum generator.
- Exterior G 1/4" threaded connections for solenoid valve attachment for quick release systems.
- Standard models and complete custom designs available for your application.
- Designed and built in North America.

## Performance Benefits

- Permits vacuum handling of objects with any shape and feature that have reasonable transpiration.
- Octopus can reliably pick up an object that only occupies 10% of the suction plate surface.
- Can lift and handle smooth, rough or irregularly shaped items... and the wooden pallet they are taken from!
